

# Battery-Powered Banding Installation Tools

## BTX-8000

### Battery Powered Banding Tool

Hayata introduced the first battery-powered banding tool on the market. Today, the NEW **BTX-8000** carries on this innovative tradition by making the installation of coated or uncoated 1/4" to 3/4" bands easier than ever!

#### FEATURES:

- 18-volt Lithium Ion battery delivers longer life,\*recharges in 30 minutes and operates at low temperatures (-4°F / 20°C). (Two batteries included.) Low battery indicator.
- Lighter unit weight\* and new hex grip design for easier handling during installations
- Delivers uniform tension for each installation for consistent tensioning for the entire job
- Offers more control over tension vs. manual tools, lowering risk of damage to the cable jacket
- Variable torque adjustment – up to 480 lbs.
- Built-in trigger activated work light
- 5:1 productivity ratio advantage over standard tools
- Easy to use manual cut-off lever

\* Compared to BTX7000

## Manual Banding Installation Tools

### Punch Tool

Allows for tensioning and punch locking band.

Hayata Product Number: PT500

Weight: 3.4 Lb (1.5 Kg)

### Push Bar Tensioner

Can be used with "Closed Seals" for 3/8" - 3/4" x .020 (max. thickness) steel banding. Great for use with round, irregular, or non-compressible packages.

Hayata Product Number: PB6-020

Weight: 3 Lb (1.4 Kg)

### JR Tool

Can be used on 1/4" to 3/8" wide band and free end clamps. This tool tensions and cuts.

Hayata Product Number: JR100 • Weight: 1.1 Lb (2 Kg)

# Manual Banding Installation Tools

## BT-200

The Hayata BT-200 stainless steel ratchet banding tool is designed to make manual installations more efficient and reduce worker fatigue. This super durable tool features an extra long nose for hard to access areas and extra tightening leverage.

- Extra long nose for hard to access areas and added tightening leverage.
- 3-way handle for one or two-handed operation
- Lightweight design reduces installer fatigue
- Easy to load and easy material removal

**Easy  
One-hand  
Operation**

The BT-200 is Hayata-strong, designed for heavy-duty use and abuse in hard to access areas.

## Tough Tool

This tensioning tool with built-in cutter provides up to 2400 lbs. of tension and can be used on free-end clamps, fix band and coated band.

Powder coat finish helps protect tool from corrosion.

Hayata Product Number: TT2400  
Weight: 4.5 Lb (2 Kg)

## Gorilla Tool

When the Tough Tool is not enough, the Gorilla Tool is designed for heavy-duty applications where up to 6000 lbs. of torque may be required.

Hayata Product Number: GT6000  
Weight: 11 Lb (5 Kg)

## Ratchet Tool

This Ratchet tool to be used with coated and uncoated stainless steel banding. Longer ratchet lever allows for manual tensioning to the desired amount. To cut off excess strap push the shorter ratchet lever downward. Hayata Product Number: RT400  
Weight: 3 Lb (1.4 Kg)
